Errata

On Blair, Cooper, Coppock and Humphreys (2019), *American Political Science Review* 113(3)

This note lists two corrections to "Declaring and Diagnosing Research Designs," published in *American Political Science Review* 113(3):838–859, doi 10.1017/S0003055419000194. **Neither changes any conclusion of the paper**, and neither touches the text, a table, or a figure: both are page ranges in the reference list.

Both were found by an audit that sends every printed reference entry whole to Crossref and checks the authoritative record back into it, and each is verified against the record named in its note and on the published page. The code supporting the maintained analysis is at github.com/active-maintenance-aec/blair_cooper_coppock_humphreys_2019.

The reference list

1. The Green and Lin reference ends its page range one page early

Published, p. 857:

> PS: Political Science and Politics 49 (3): **495–9**.

Corrected:

> PS: Political Science and Politics 49 (3): 495–500.

Crossref, doi 10.1017/S1049096516000810, gives the article's pages as 495 to 500.

2. The Nosek et al. reference prints a first page in place of a page range

Published, p. 857:

> Science 348 (6242): **1422**.

Corrected:

> Science 348 (6242): 1422–5.

Crossref, doi 10.1126/science.aab2374, gives the article's pages as 1422 to 1425. The entries around it on the page print full ranges.
